SUMMARY

Passionate Software Engineer with 9+ years of experience building clean, scalable, and high-impact web applications. Specializing in TypeScript, React, Node.js, and cloud technologies, with a track record of shipping pixel-perfect UIs and backend systems that drive real results.

EXPERIENCE

Senior Software Engineer   Oct. 2024 - Present

Mimecast, Remote

• Leading the development of migrating the Aware front-end application into the Mimecast AWS cloud environment to prepare for serving multiple regions

• Improved application code coverage by 40%

• Implemented CI/CD Jenkins pipelines and Terraform for deployment

Software Engineer II   Sep. 2022 - Oct. 2024

Aware (now part of Mimecast), Remote

• Developed and maintained the Aware React-based web application

• Collaborated with cross-functional teams to deliver ground breaking features on time such as Aware IQ Ask & Summaries

• Refactored & migrated legacy class-based React components to functional components using Hooks for improved code maintainability, readability, and performance

Lead Software Engineer   Jul. 2020 - Jun. 2022

Heypex Global, Rogers, AR

• Managed and developed all client projects related to technology - web development, ecommerce, and digital design

• Delivered full-stack client projects on-time as a solo engineer

Software Engineer   Jul. 2017 - Jul. 2020

Collective Bias (Acquired by Inmar Intelligence), Rogers, AR

• Led the development & design of Collective Bias's React-based client dashboard

• Collaborated as part of the engineering team towards development and maintenance of all in-house applications & micro-service

Jr. Front End Web Developer   Nov. 2015 - Jul. 2017

Collective Bias, Rogers, AR

• Developed and maintained rapid release client micro-sites

EDUCATION

Associates of Arts

Sep. 2012 - Dec 2017

Northwest Arkansas Community College, Rogers, AR

• Specialization in Digital Arts
